SUMMARY

Frontend Developer with 1+ year of experience in building scalable web apps using React, Next.js, and TypeScript. Proven expertise in API integration, state management, and achieving 80%+ test coverage with Jest. Experienced in Agile environments at Telkom Indonesia and IDstar.

WORKING EXPERIENCE

PT. IDstar Cipta Teknologi, Jakarta

Dec 2025 – Present

Frontend Developer Intern

- Developed a talent management super app using React (Vite) and Ant Design, enabling full CRUD operations and reusable components for scalable talent-to-client allocation workflows.
- Created structured and maintainable styling architecture using Sass (SCSS), leveraging variables, mixins, and modular styles.
- Optimized data fetching and synchronization using TanStack Query and Axios, implementing caching and mutation strategies to improve app performance and user experience.
- Utilized GitLab for version control and collaborative code reviews within an Agile environment

PT. Telekomunikasi Indonesia, Tbk (Direktorat Digital Business), Jakarta

Mar 2024 – Feb 2025

Frontend Web Developer Intern

- Built responsive dashboard interfaces using Next.js, TypeScript, and Ant Design, ensuring seamless integration with RESTful APIs and efficient state management.
- Achieved over 80% unit test coverage using Jest.
- Collaborated in an Agile (Scrum) environment with cross-functional teams, leveraging GitLab for version control and participating in daily standups to meet sprint goals.

EDUCATION

Bina Nusantara University, Jakarta
